

▶▶ Greeting

The predecessor and the founder of our company, Mr. Osamu Kyan, started independent business for electrical safety management after working as a facility section chief at the major company in Okinawa. Ever since the founding of the company, we have been providing services for over 30 years. Now, we have expanded the business into electrical, HVAC and fire protection construction works including safety management.

Our policy is having a spirit to handle customers' entire facility section, giving the highest priority to customers and conducting duties based on the technique fostered through electrical safety management.

As we push forward with daily tasks, all our employees are united, keeping in mind the importance of harmony and serving for prosperity of the world through contribution to our customers.

We appreciate your continued patronage and encouragement.

President, Hisashi Kyan
